Patient Survey

This survey is part of a program to help doctors improve the care they give patients. The American Board of Internal Medicine (ABIM) sponsors the program.

You can help our office give you the best possible care by completing this survey about your own medical care. The survey is easy to do. It will take less than 15 minutes. You can do it by using the telephone or the Internet, and no one in your doctor's office will know how you answered the questions. If you choose not to answer, that's okay.

Your doctor's office may offer to collect your written responses and enter them over the Internet for you. This is okay. If you give your completed survey to someone in your doctor's office, they may know how you answered the questions. To help keep your answers private, please do not write your name on the survey.

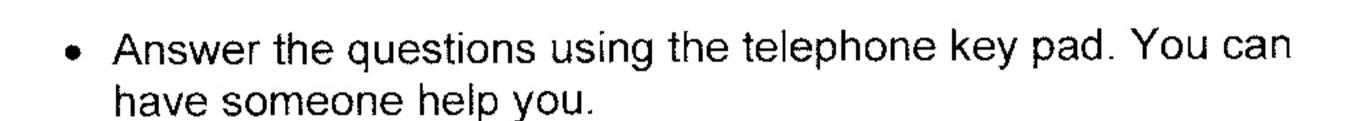

Important: If you have not had an appointment with this doctor in the last 12 months, these questions will not apply to you. Thank you for your willingness to participate, but this survey is intended for patients who recently visited the doctor's office. If you are scheduled to see this doctor soon, you may wish to complete this survey after your visit.
